

Goblers

Turkeys are harder to rear than children sometimes, but they mature earlier, and once they reach maturity there is less chance of them going wrong. W. Freeman with his tremendous flock demonstrates that other than wheat can be raised in Alberta. He gets his greatest returns at a time when Santa Claus is making his heaviest outlays. The farm is at Strathmore, where is also the Canadian Pacific Experimental Farm.

Here and There

(208)

Apple shipments over the Dominion Atlantic Railway in Nova Scotia up to and including December 6th totalled 2,186 carloads—an increase of 272 cars over the same period of last year.

A motor road that will shorten the present Banff-Calgary highway and take in some of the finest scenery in the Rockies is now in course of construction and should be in operation next year.

The Port of Montreal has again scored a new record with grain deliveries at 210,500,000 bushels for the season of navigation. Last year's deliveries ran to 195,247,914 bushels and those of 1926 to 184,591,240 bushels.

Many visitors from western cities in Canada and the United States are expected at the Banff Winter Carnival this season, said W. A. Brewster, president of the winter sports organization at Banff, judging from the number of inquiries that have been received. Skiing, skating, and other kindred winter sports will be in full swing, he said, and it now appears there will be many competitors from outside points in the various events.

The present season of navigation is characterized by a phenomenal year as far as general cargo is concerned by the chief of the wharfe department of the Harbor Commission of Montreal, commenting on business outside of grain. "We shall show a revenue increase that will be astounding when the annual report comes to be made up," he said.

Although the Canada Colonization Association only started to operate in Ontario last February, it has already placed 189 families on 5,671 acres of Ontario farm lands, according to a statement made recently in Toronto by W. C. Kent, Hamilton, provincial representative of the association. It was his opinion that British settlers found it easier to start in Ontario than elsewhere.

Some 200 of the thousand head of buffalo in Elk Island Park, east of Edmonton, have been slaughtered during December in order to keep the size of the herd within the carrying capacity of the park pasture. It is expected that most of the meat thus secured will be shipped north in the form of pemmican to provide food for Eskimo inhabitants of the Northwest Territories as a result of the growing demand from this source following the trial shipments made last year.

Supplies for the 150 inhabitants of the lonely little island of Tristan da Cunha in the southern Atlantic not far from St. Helena are being collected by Montreal chapters of the I.O.O.F. and will be delivered in February by the Canadian Pacific Liner "Duchess of Albany." This great liner, making a cruise of South America and Africa, is one of the few vessels to call at this isolated point. The visit is one of the unique features of the cruise for the passengers and the event of the year for the inhabitants of the island.

BABY CHICKS—Canada's Bred-to-Lay White Leghorns, Barred Rocks, Raps, Wyandottes, White Rocks, Anconas, Minorcas, Orpingtons. From tested, vaccinated and inspected flocks. Big discount for orders received by January 1st. Write for Free Catalogue. Alex. Taylor's Hatchery, 362 Parby St., Winnipeg, Man.

Funeral of Mrs. Robt. Jenkins Last Thursday

The funeral of Annie Wallace, wife of Robert Jenkins, was held on Thursday last, the service being held at the family residence, West in the net in the midst of a scrum. Coleman, the Rev. H. D. DeVan of the United church, officiating. Organizations represented were the right wing for Coleman, scored Miners Union and the Mooseheart twice, the score standing 2-1 at the Legion, besides many personal bell.

The family are Mary, formerly living in Calgary; George of Mercoal; Joseph, Jackie, Hobly, Agnes and Douglas, the youngest being 34 years old.

Mrs Jenkins was ill for only a few days, and the Monday previous effort to add to their score, and working up their defence line well Sunday, Drenner 16, she was at the fore, Turner scored, bringing tending a whilst drive in town. She the score to 4-3 in favor of Coleman. Three quarters of a minute before the bell rang Fraser landed another in the net for Coleman, and the calling of time saw Bellewell, W. Roughhead, Robert Penman, vue making a last attempt to reach James Barclay, W. Cousins, James Muir.

Floral tributes were sent by the following:

The Family, Mr. and Mrs. J. Richards, Mrs. Margaret Hoggan and Mrs. Robert Hoggan, Mrs. Jesse and Harry, Langdon, Alla; Mr. and Mrs. J. C. Cox, the Graham Club, Home Chapter Legionaires, Coleman, and the head chapter, of Mooseheart, Illinois, Neighbors and Friens Is. Mr. and Mrs. James Yates, Mrs. Vincent and Harry, Sisters Hatfield, Thomas, Phillips and Cornes, Palace Theatre Co., Mr. and Mrs. Neil Flemming, Mr. and Mrs. James Jenkins, Cadomlin, Alla; Mr. and Mrs. M. J. McGrath, Mr. and Mrs. Clarence Petrie, and the following from Calgary: Mrs. Morrison and family, Mr. and Mrs. Sutherland, Mr. and Mrs. Audet, Margaret Slaten and Dave Jesse. Also card of sympathy from the Salvation Army.

CARD OF THANKS

Mr Robert Jenkins and family desire to express their thanks for kind expressions of sympathy in their bereavement, and to all who sent flowers and loaned cars for the funeral.

Three Straight Wins for Coleman in Crow Intermediate League

Christmas Day Game at Bellevue Most Stubborn of the Series to Date—Sadlish Scored Three of Five Goals for Coleman and Fraser Two

Overtime Necessary to Decide Game

Battle Royal Expected When Blairmore and Coleman Meet—Hillcrest Will Play Here on New Year's Day at 2 p. m.—Blairmore Here January 8

Coleman Canadians scored their till the present. third consecutive victory on Tuesday afternoon in the intermediate series of the Crow's Nest Pass Cousins, Alltop; forwards, Fisher, League, defeating Bellevue Bulldogs Bonne, Mattson; goals, Turner, for the second time by 5-3, ten Hallworth, Brooks. Coleman—Goal, Colagrosso; defence, Stevink, Gate; forwards, Fraser, Sadlish, Kulbin; goals, 2-2.

Bellevue showed greatly improved form on their home ice as against the game played here last Thursday, and started out very aggressively, giving the Coleman boys a hard grueling on heavy ice. The 16th minutes.

Summary—first period: Bricks, Bellevue, 2 minutes; Second period—Sadlish, Coleman, 4 minutes; Sadlish, Coleman, 1 minute. Third period—Bonne, Bellevue, 1 minute. Overtime—Sadlish, Coleman, 4 minutes; Fraser, Coleman, 5 minutes; Turner, Bellevue, 6 minutes; Fraser, Coleman, 9 minutes.

Penalties: Coleman—Chapman, Kulbin, Sadlish, Gates, Chapman. Bellevue—Mattson, Brooks, All friends and acquaintances of the family. In the second period, Sadlish, Coleman, scored twice, the score standing 2-1 at the Legion, besides many personal bell.

In the third, Bonne, left wing for Bellevue, tied the score one minute after the period opened, and the deadlock was not broken played in Coleman in Hillcrest vs. Coleman on New Year's Day. A, despite the rushes made by both sides. Clare, defence player for battle royal for premier houses in Blairmore and Coleman, the first of which will be played at Blairmore on January 4, and the second at Coleman on January 8.

The league standing at present is:

P. W. D. L. Pts.
3 3 0 0 6
2 2 0 0 4
3 0 0 3 0
2 0 0 2 0

Last Thursday's Game

In the third game of the Crow league last Thursday evening here, Coleman Canadians scored their second victory of the series by whitewashing Bellevue Bulldogs by 7-0. The first nine minutes of play was featured by very fast work by Coleman.

Also Special Free Matinee by the Coleman Elks on New Year's Day at 1.30 p. m. for the Children—Jackie Coogan's Special "Buttons" and "Our Gang" comedies.

Palace Theatre

An Ocean Highway Rebuilt

Through Canadian history Halifax has been an important naval and mercantile port, and gave birth to the famous Cunard Line in 1840. A combination of three big transportation interests inaugurated, this winter, just before Christmas, a new weekly passenger and freight service to Britain and Europe which sets a precedent for the Canadian ports. Speaking for the Canadian National Railways, W. D. Robb, vice-president (reader's left), told many of Canada's leading citizens at luncheon aboard the S.S. Albatross in Halifax, that the National system will provide fast freight and passenger service to the United Kingdom. Speaking as a director of the Cunard Line, R. W. Redford (right), president of its Canadian Service, said that the coming century belongs to Canada, and that Halifax is leading off by profiting from this Dominion-wide freight and passenger service through its harbour. Mayor Gaetangay, of Halifax, (centre), expressed the deep appreciation of all Halifaxians for a transportation service which will make Halifax hum with shipping activity in the months and years to come. White Star liners will also participate in this big traffic scheme.

L.O.B.A. Installation Of Officers

The following officers of the L. O. B. A. were installed for the coming year:

Worthy Mistress, Mrs. H. E. Gale
Deputy Mistress, Mrs. R. Ferguson
Immediate Past Mistress, Mrs. Ash
Recording Sec., Mrs. N. McKinnon
Financial Sec., Mrs. E. Dunlop
Treasurer, Mrs. H. Holmes
1st Lecturer, Mrs. M. Dunk
Dir. of Ceremonies, Mrs. F. Thom
Guardian, Mrs. S. Milley
Inner Guard, Mrs. S. Milley
Outer Guard, Mr. R. Holmes
2nd Lecturer, Mrs. G. Dixon
1st Committee, Mrs. Cousins
2nd Committee, Mrs. MacGillivray
3rd Committee, Mrs. W. Borrows
4th Committee, Mrs. Glenendinning
5th Committee, Mrs. Ash
Trustees—Mr. Holmes and Mrs. N. last saw it.
McKinnon.
Auditors—Mrs. Glenendinning and Mrs. Ferguson.

"Wes" Johnson Visited The Old Homestead

Pleasantly Surprised at Toronto's Wonderful Development Since He Left There 25 Years Ago

R. W. Johnson returned from Toronto on Saturday morning, after having been away since Nov. 10. He received a wire stating his father had been taken suddenly ill and died in Toronto hospital. The late Mr. Johnson was 80 years old, and farmed in Ontario. He is survived by three sons, Fred of Lundbrook, and two daughters, Mrs. G. Dixon of Toronto and Mrs. W. of Coleman. It is 25 years since he visited the old farm where he was born and spent the early part of his life. It is only a short drive from the city, and many changes have taken place since he last saw it.

"Wes" spent six weeks visiting old friends and renewing acquaintances, and saw wonderful changes everywhere, the development on all sides being a revelation to one who has not visited there for many years. He also visited the winter fair, which has been one of Toronto's big attractions this winter.

The Family Herald and Weekly Star have just announced a special offer of a three years' subscription for \$2. Splendid value at the low price, this radical reduction should now place the Family Herald and Weekly Star in every home in Canada.

Boxing Matches

Boxing fans had an opportunity of seeing a few rounds in the Opera house on Saturday evening, when two visiting exponents of the fist art, named Rowan Bros., appeared under local auspices. As the sporting editor of this journal was otherwise engaged, it depended on Bill Hurrows to furnish readers with the details of the matches, but likely he did on every literary table in Canada in saving it for the next issue.

It Was Our Fault

Mr. Roland Laslett has a legitimate claim. In last week's issue in a news item he was reported as Mr. Roland Kerr, and people asked him when he had changed his name. It was one of those slips of the pen which happen in newspaper offices occasionally, but The Journal hastens to assure its readers that he is still very much Mr. Roland Laslett, and that he will be pleased to meet you at any time.

A New Year's Resolution

This is the season when with Christmas thoughts of "Peace on earth, good-will toward men" still uppermost in our minds we turn our faces toward the New Year in the hope and expectation that it will prove a better, happier, more prosperous year than the one that has gone before. New Year resolutions are made, some are kept, many are broken, because man is after all very human and weak.

But there is one guiding motive in the lives of all which surely we ought to adopt and determine to keep. It will cost us nothing to do so but a little self-restraint; and it will add immeasurably to our own happiness and peace of mind, and to the peace, progress and prosperity of every local community, every province, and the Dominion as a whole. Nay more, its universal acceptance and practice would constitute a permanent guarantee of the peace of the world.

It is the essence of the Christmas message, "Peace and Good-will Toward Men;" it is the golden rule of life, doing unto others as we would that they should do unto us. It is a spirit of tolerance, of brotherhood, a recognition of the rights, even the prejudices of others, and acceptance of the fact that there are other viewpoints than those we ourselves hold and cherish.

In every community and in every country there are, unfortunately, men whose greatest ambition appears to be to nullify, stamp out, kill the spirit, the ideals, the principles which the Saviour of the world taught his disciples, and for which He laid down His life. Such individuals, having certain ends to serve, strive for a time by stirring up strife, through the arousing of passions, prejudices, hatred, disrupting whole communities, and leaving behind them a trail of division, suspicion and ill-feeling where formerly concord and co-operation prevailed. These agitators, seeking self-aggrandisement or other selfish ends, pass on, but individual lives have been embittered, happy homes wrecked, communities divided, and all the old pleasant relations and amity destroyed.

It is passing strange why so many otherwise sane and intelligent people give heed to the demagogic appeals of men of this type rather than to the real leaders of their country. Why is it that men and women can be stirred to frenzy against their fellow citizens merely because they speak another language, or whose skins are of a different color, or because of birth and upbringing, have been taught to worship God through different forms to those they themselves have inherited and accepted?

Rather than be swayed by these peace-wreckers and hatred-breeders, would not Canada, and the people of Canada, find greater happiness, more real contentment, and achieve greater prosperity and attain to higher things, if, instead, they followed the leadership of Canada's real leaders, past and present?

The confederation of Canada was not accomplished by men who sought to divide the people into rival and antagonistic groups, stirring up passions and fanning the flames of racial and religious prejudice. Such men can never be constructive, but always destructive. They never did, and never can build up a country. No, Confederation is the achievement of men like Sir John A. Macdonald, George Brown, Sir George Cartier, who, forgetting and submerging personal views, united and worked together successfully to unite Canadians of all classes, races, and religions into one great united Confederation.

Hon. R. B. Bennett, upon whom the mantle of Sir John Macdonald has fallen, is not preaching race and creed bitterness, but is raising his voice on all occasions for unity and sympathetic consideration by all of the convictions and rights of others.

In the Saskatchewan Legislature recently the Minister of Public Health said: "I claim that any brand of Canadianism that does not accord equality to all its citizens, irrespective of race, creed, or place of birth is a fraud, for my country means anything to me, it means that its institutions are broad enough for every man to be protected in his faith, in his liberty, and as far as justice is concerned to have a voice in public affairs and to be able to express his opinions on public subjects."

As the carillon in the Peace Tower of the Parliament Buildings, at Ottawa, in common with bells around the world, rings out the old and rings in the new, cannot people of Canada rise far above the old suspicions and animosities of the past, and, scornfully rejecting the appeals of those who would keep their country in a turmoil, accept as eternally true the words addressed by Sir Wilfrid Laurier, shortly before his death, to a body of university students: "Trust is better than fear; faith is better than doubt; love is better than hate."

Heavy Cable Tolls

South American War Crisis Cost League Of Nations Large Sum

The South American war crisis has cost the League of Nations the biggest telegraph and cable bill in its career. The council despatched the entire official correspondence relating to the dispute between Paraguay and Bolivia to nearly sixty governments, each separate despatch consisting of five closely spaced typewritten sheets. The total cost amounted to over \$6,000.

Ring-Necked Pheasants

It may be recalled, from experiments tried on the ranch of R. Bray, that the ring-necked pheasant, should thrive well in Southern Alberta. Last spring the Alberta Fish and Game Association bought forty chicks for breeding experiments. Two of them, now on display in a store window at Medicine Hat, are attracting quite a lot of attention.

Break Colds

Colds are quickly broken with Minard's Liniment on chest and throat and also inhaled.

Solve Arctic Mystery

Discovery Of Two Skeletons In Siberia Thru Hunt On Polar Expedition

Discovery of two whitened skeletons is believed to have solved the ten-year mystery surrounding the exact fate of two members of the 1916-1919 Polar Expedition of Roald Amundsen. The skeletons were found recently in northeastern Siberia.

The men involved were named Tessem and Knudsen. Both were members of the crew of Amundsen's Polar ship, the Maud. They left the expedition at the Chukotka peninsula, with letters, maps and scientific data, all of incalculable value, which Amundsen thought it desirable should reach civilization at once. Tessem and Knudsen were trying to make Port Dudinka. Ever since and nothing had been heard of them until the discovery of the skeletons.

Radio Sets For Cuban Schools

Every school room in Cuba is to be equipped with radio receiving apparatus in order that educational programs may be tuned in, a report from that country's statistics. The students plan to construct their own sets.

Austria has marked the one-hundredth anniversary of the introduction of the accordion, devised in that country, to other parts of Europe.

The sulphur of coal smoke will make red or blue flowers much paler, or even white.

Is Losing Money Growing Prize Wheat

Must Have Support To Continue Says Herman Trelle

Herman Trelle, of Wembley, Alta., three-crowned king of the wheat world, will have to abandon experimental work on registered seed and turn to growing wheat commercially, "unless there is support coming from somewhere in Canada," he declared in an interview with the "Wheat King." "I am going back growing high-grade exhibition wheat," he said, "I used to make money—quite a lot of money growing commercially; but practically all the money has gone on experimental work on registered seed."

The wheat king, who this year produced the largest crop of registered seed grain in the history of the world—ten carloads of it—declared: "There is little money to be made in growing wheat, but the prizes in the leading shows of the world."

"If I had all the money that has been offered to me to accept various positions in the United States as the result of winning grain championships, I would not have to worry about the future," Mr. Trelle continued. "But as it is, the money I made growing wheat for the market is almost gone; and unless there is support coming from somewhere in Canada I'll have to give up. Therefore, I never considered the financial aspect of growing prize wheat; now I have to consider it."

TO THE MOTHERS OF ALL PALE GIRLS

If Your Daughter Shows Signs Of Anaemia, A Tonic Is Needed

Anaemia is simply a lack of blood. It is one of the most common and at the same time most dangerous troubles from which growing girls suffer. It is common because the blood often becomes impoverished during development, when girls often overwork and overstudy. It is dangerous because of the stealhiness of its approach and because of its tendency to grow steadily worse. Every growing girl should occasionally take a tonic to ward off this insidious trouble. It is because of their powerful action in rebuilding the blood that Dr. Williams' Pink Pills have made a world-wide reputation. The case of Miss Claire Sullivan, of Cresk, Alta., amply proves the value of this medicine. Miss Sullivan says: "During my school days I suffered a great deal from dizziness, fainting, and I was continually weak and tired, my appetite was poor, my sleep unrefreshing and I was troubled with backaches. To make matters worse I was attacked with acute appendicitis and the operation left me in a very weakened state. My mother, learning of the value of Dr. Williams' Pink Pills, had me take them and after using them for some time I can say the result was simply wonderful, as they completely restored my health, and now when opportunity occurs I always recommend these pills to weak, pale girls suffering as I did."

You can get the pills from your druggist, or mail to 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Manitoba Industrial Progress

Production In Many Lines Shows Substantial Increase

Production in almost every group of industry in Manitoba has been in excess of the year 1925. The Industrial Board's general survey has proceeded far enough to indicate the increase in production in the leading groups of industry over the previous year. Flour and grist mills have increased 18 per cent; slaughtering and meat packing 14 per cent; bread and baking products 10 per cent; brewing 15 per cent; coffee and spices 20 per cent; printing and publishing 15 per cent; paper 45 per cent; stone 25 per cent; wearing apparel 22 per cent; and steel and iron 50 per cent. The estimated gross output for the province in 1928, is \$159,202,000, or a general increase of about 20 per cent over the production for the year 1926.

Canada's Best Customer

Canada's trade with the Old Land is only second to that with the United States. But the difference between our trade with the United States and our trade with Britain is that whereas the United States buys from us but a fraction of what she sells to us, Britain sells to us infinitely less than what she buys from us. In time respect, therefore, and considering her population, a comparison with the United States, Britain is really our best customer.

Check Colds with Minard's Liniment.

It is predicted that in ten years there will be one automobile in Europe to every 20 people, in contrast with the present one machine to every four people in the United States.

Formal Discussions Of International Problems

Says Time Has Passed When Nations Can Be Trickled Into War

Chairman Britten, of the house naval committee, says a Washington despatch, announced that he intends to propose for adoption by the inter-parliamentary union a plan for frequent formal discussion between representatives of two or more nations of their problems. Britten divulged his plan in a letter sent to Commander Joseph M. Kenworthy, Labor member of the British parliament. The letter was in answer to a cablegram relative to a previous proposal of the chairman for a conference on naval limitation between committees from the house of parliament.

"The time has passed when millions of men and women can be tricked or blundered into war by ambitious executives of irresponsible diplomats," Britten declared. "Secret, so-called diplomatic understandings and mysterious treaties affecting the very life of a nation are out of place in a world desiring peace and equality of opportunity."

As long as no agreement is reached for equality on the seas, Britten continued, every appropriation for warship construction in Great Britain is a world desiring peace and equality of opportunity. Without an agreement, he added, the United States should "adopt a policy on national defence that would supersede all powers."

An increase in the navy because of the attitude of Great Britain on armaments was demanded in the senate by Senator Gillett, Republican, Massachusetts.

He said if Great Britain is "unwilling to agree with us on armaments," he could no other safe course but to increase the United States navy, and added:

"It is disagreeable to contemplate or discuss hostilities, but it is dangerous to shut our eyes to them. I thoroughly agree with recent statements in Great Britain that have between the two countries is unthinkable. Yet all declarations of the best intentions are sometimes forgotten."

Patten Estate

Chicago Wheat King Leaves Huge Amount To Charity

Nearly 50 per cent. of the estate of the late James A. Patten, "The Wheat King," who died recently, will eventually go to charity, the Chicago Title and Trust Company, named as executor and trustee, has revealed. The estate is estimated at \$150,000.

Upon the death of the widow, the estate is to be turned over by the trustee, one-fourth to the son, an equal share to be daughter, and the remaining one-half to be divided among seven charities.

"Hard-working wife you've got, Sir," "Yes, I wish I had a couple more like her."

Demand Exceeds Supply

Canada Does Not Make Enough Matches For Home Market

Canada, it would seem, ought to possess a thriving industry in the making of matches. This Dominion produces a large proportion of the material required.

Each year Canada imported matches to the value of \$90,985, as compared with \$35,346 the year before. These came almost entirely from Sweden, though there were also purchases made in the United Kingdom and the United States. Exports during the year showed a decline of from \$18,470 to \$8,491, being given in small quantities to a great many countries. Canada is at the same time exporting match splints for the industry in other countries. The value of these to leave the country in 1927, was \$466,248, and in 1928, \$385,985. The United Kingdom is the principal importer while the Irish Free State is also an importer.

Six years ago there were four plants manufacturing matches in Canada, but through amalgamation there were but three in 1926, though the capital investment in the period had increased from \$2,168,775 to \$4,509,305. A total of 781 persons found employment in the industry, being paid the sum of \$523,784. The cost of materials used in the industry was \$1,069,695, the selling value of the products was \$1,943,795 and the value added by manufacture accordingly \$874,100.

While many of the chemicals utilized have to be imported the items of heaviest cost in manufacture are lumber, splints, containers, boxes and cartons, the material for which are native products. In view of this one would expect to find a greater development in the industry. Almost the entire Canadian production is domestically consumed, export trade amounting to less than one per cent. of the output.

Survey Of Resources

During the past summer a careful survey of natural resources was made in the north country along the Edmonton, Dunvegan and British Columbia Railway, and next year a smaller survey will be made in territory adjacent to the Alberta Great Waterways line under the Natural Resources Research Act.

Cobalt Production

Cobalt produced in Canada is obtained chiefly by treating arsenical silver-cobalt-nickel residues from the Cobalt, South Lorrain, and Gowganda silver camps in northern Ontario, though a small part of the production is obtained directly from low-silver, high-cobalt ores.

Judge—"Prisoner, you are sentenced to hard labour for life." Criminal—"Excellent! May I sit down for five minutes before I begin?"

Canada's Dairy Products

The total value of all products of the dairy factories in Canada in 1926 was \$13,353,076.

To Enter Canadian Banking Field

Barclay's Bank Of England Make Application To Form a Bank Here

Barclays Bank, Limited, one of the largest banks in England with resources of approximately \$1,800,000, is about to enter the Canadian banking field.

According to an announcement appearing in a recent issue of the Official Gazette, at the next session of parliament an application will be made to form a bank under the Canadian Bank act to be known as "Barclays Bank (Canada)."

Barclays Bank, Limited, of London, is one of the "big five" with resources as shown in the balance sheet as at the 30th of June, of approximately \$1,800,000,000.

It is understood that Sir Robert Borden will accept the office of president of the new bank.

Worms, however, generated, are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There is a good remedy for this little trouble, the hurtful irritations have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Navigation Closed

Without Any Mishap

Everything Made Safe For Winter

With No Loss Reported on the Great Lakes and St. Lawrence River was successful, according to reports received by the department of marine and fisheries. In the lower St. Lawrence all the equipment of the department, such as buoys and floating lights were gathered into winter quarters without any losses whatever as far as could be ascertained.

All the ocean-going boats operating along the river and lakes reached the sea without encountering ice, and the lake and river boats were safely laid up for the winter.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Foods and Seasons

The canned food industry of Canada has effected great changes in the relation of foods to seasons. Fruits and vegetables of many kinds, with all the flavour of the freshly gathered product, are to be had in or out of season all the year round.

Employer—Mark it five shillings a yard.

Shopman—But it cost only three shillings a yard.

Employer—That's all right; this sale is "regardless of cost."

Minard's Liniment for Asthma.

Manufacturers of all kinds of products from steel gates to jewelry, are sending representatives to the London museum to study the exhibits in order to get new ideas.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

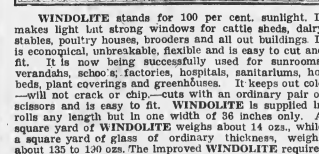

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that such most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, poultry raising, and poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle, and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light, but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, and beds, plant coverings and greenhouses. It keeps out cold and rain, and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

CHAPTER X.—Continued.

"One of the office men by name of Renwick. He's one of them narrow-tween-the-eyes, psalm-singin' old has-beens that set 'tut tut' every time he hears a logger say 'damn.' His health is poor, so they're goin' to send him up here to take charge of this mill. I think he's 'em goin' to have charge in the woods, so I won't have nothin' to do with him."

They discussed the matter during the day, and that evening they again visited the falls. From the trapper Donald learned that the supply of water was unfulfilling. Owing to the natural formation, the cost of building the dam would be small. Donald's friends became as enthusiastic as himself.

"We'll be finished to-morrow night, Douglas," announced Billie that evening. "If you and Donald want to, you can go to town and put this proposition up to your father."

The lines of steel were creeping north slowly but surely. As they left the cabin to start for the Coast, the first faint boom of a blast was brought to their ears by the southern breeze. Ten miles south of the lake they came to steel and rode to Squamish in the cab of a locomotive, reaching Vancouver that night.

Douglas informed Donald over the phone the next morning that his father would give him a hearing at two o'clock that afternoon.

As Donald thought of the impending meeting he experienced certain inward quakings. He felt that Renwick would oppose him, and wondered if Robert Renwick would consider him connected and forward in suggesting such a radical innovation.

At the appointed hour Donald and Douglas entered the office of the R. C. & L. Co. Robert Renwick greeted Donald with a friendly smile and motioned to a chair near his desk. "You have some papers with you, I presume," he said.

Donald placed the rough plans on the desk before him. For five minutes Robert Renwick studied them quietly while Donald fidgeted. Without comment, he leaned back in his chair for a moment, apparently in deep thought. Presently he pressed a button at the side of his desk.

"Send Renwick, Bolton and King here," he said to the boy who answered the bell.

As the men entered the room Donald had no difficulty in recognizing Renwick from Gillis's description. Robert Renwick rose to introduce Donald, then spoke in quick, flashing sentences that went straight to the heart of things, as he spread the plans on the table before him.

As Donald had anticipated, Renwick, after a short scrutiny of the papers, objected strenuously, his chief objection being the initial cost, together with the fact that experience had demonstrated that only small mills had proved a success when electrically driven. Bolton was of the same opinion, but he admitted that

Nervous and Run Down
The Least Noises
Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was nervous and run down I could hardly bear to have the children make a noise it would bother me so."

"A friend advised me to take

**MILBURN'S
HEART
& NERVE PILLS**

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."
Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1765

If the supply of timber were sufficient to keep the mill in operation for years, the initial cost would be offset by the economy of operation.

King, the company's chief engineer, vouchsafed no opinion, but sat with Donald's plans before him, copying the figures in his note-book. Robert Renwick glanced at Donald expectantly.

Donald spoke of the lessened cost of operation in an electrically-driven mill by the reduction in the number of millwrights, oilers and helpers, the lower insurance rates, the saving on line-shafting, belts and oil of the advantage in speed over a steam mill, etc. As he warmed to the subject he came to his feet and leaned over the desk.

"As you gentlemen know, the greatest enemy of the mill-owner is fire. With a steam-mill of the size you are to build, with donkey engines and locomotives operated by steam, you will have a battery of smokestacks that will be an hourly menace during the summer months. It is a dry air at that altitude. Electricity your mill and donkey engines and you will reduce the fire hazard by seventy per cent. I don't ask you to accept my opinion. I advise you to investigate thoroughly before deciding. An electric mill with the enormous power available would be a credit, not only to this company, but to this Province as well."

Robert Renwick's brain functioned with a clear-cut precision. He would listen to the advice of his experts with an attentive ear, and his decision was usually made before the last one had ceased talking.

While Donald was talking Robert Renwick sat forward in his chair with a look of almost strained attention. As Donald finished he swung quickly to his chief engineer. "King, tomorrow you go to Summit Lake. Furnish a full report if you figure correspond with McLean's we will install an electric plant. Bolton, get quotations at once on electrical equipment. That's all," he finished tersely.

He turned to the two young men as the door closed. "Beginning with the first of next month, McLean, if you so wish, you will act as assistant manager at the Summit Lake Mill. And you," he turned to Douglas, "will occupy a similar position at the Cheakamus plant." He rang for his stenographer, and in a few minutes he concluded an embarrassed thanks, and as he passed through the door he heard Robert Renwick's voice in rapid dictation.

They spent the remainder of the afternoon buying supplies from the list which Andy had furnished them. There were numerous delicacies in the items of foodstuffs that brought exclamations of surprise from Douglas. "There is everything here to serve a banquet; even tablecloths and napkins. What is the little beggar up to now, I wonder?" he said laughing.

"His birthday," explained Donald. "He is going to invite the Wainwrights and John Hillier. And he'd," he added, "I think he wants to show the old trapper that he can do a little fancy cooking himself."

Janet Renwick could not interpret the inner urge that prompted her to arise at the early hour the next morning to drive her brother to the work.

It rather bewildered her—made her ashamed of herself that she could not put Donald from her mind entirely. "Why can't you forget him?" she asked herself in protest for the thousandth time. As the boat pulled away from the dock she waved an adieu and, with a troubled look in her eyes, swung her car cityward.

For two days after their return to the mountains, their little cabin was a hive of industry. Andy banished his fellow-lodgers to the outdoors at every opportunity while he performed mysterious rites over the small stove. "I'll show that juggling old pirate what a real meal is like," he chuckled to himself.

Their guest arrived late in the afternoon and set outside in the rain while Andy busied himself behind his closed door.

Old John's face shone from vigorous application of soap and towel. His sole change in attire for the occasion was a clean buckskin coat from the breast pocket of which protruded the corner of a red silk handkerchief.

Connie's abundant golden hair had been carefully brushed, and hung over her shoulders in glistening, billowy waves that reached to her waist-line. She sealed herself a short distance from the party and took no part in the conversation. This was her first social affair and she felt ill at ease. Donald's repeated attempts to break her reserve were answered in monosyllables.

The door opened to disclose a remarkable figure framed in the entrance. Andy stood before them in the most ridiculous make-up of a but-

ter. An old black coat of Gillis's, cut off at the sides to form a "claw-hammer," hung loosely over his narrow shoulders; side-whiskers of tree moss were stuck to his cheeks, and his face was as stiff as a graven image.

"Dinner is now being served in the main dining-hall, me lord," he intoned slowly.

They applauded Andy's effort heartily, and as they laughingly entered the cabin a scene met their eyes that was remarkably incongruous amid such drab surroundings.

A snow-white cloth covered the rough board table. A huge turkey, with bulging breast browned to a crispness, graced the centre of the board. Oysters in the shell, caviars, salads, several kinds of vegetables, pies, cookies and fancy cheeses were in tempting abundance; and in a place of honor near the turkey reposed Andy's birthday cake, its frosted surface covered with tiny candles.

Connie's blue eyes opened wide with wonder. "Oh, Dad!" she cried joyously. "It's all like stories, isn't it?"

John tossed his hat to the floor in the corner. "You can deliver the goods of time, sure enough," he commended in a tone of respect.

It was an odd party that gathered in the log hut in the wilderness to celebrate Andy's birthday—a wilderness whose silence was soon to be broken by the crash of trees and the clang of steel. A late blizzard, so near that the cabin trembled, caused the old trapper to shiver slightly.

"Trains will soon be running through your backyard, John," observed Douglas.

The old man shook his head sadly. "Yes," he concurred, "and I'll be hitted the trail again before long." Andy's banquet proved a success, and when the last course was finished Donald took a huddle from the shelf and placed it in Connie's hands. "Something I brought from town for you," he smiled.

Connie's colour heightened. "For me?" she asked incredulously. "Yes, some reading matter."

"Thank you," she murmured softly, as her quick fingers unwrapped the package. She cried aloud with delight as half a dozen novels and as many magazines were disclosed to view.

"And here, Andy, is a present for you," said Donald as he dragged a box from the corner; "something to assist in passing away the time pleasantly."

Andy's joy knew no bounds when, opening the box, he saw superb Victrolas was disclosed to view.

Suddenly the sweet strains of a full orchestra playing the "Barcarolle" filled the room. Connie was enraptured. She stood with bowed head and closed eyes, her hands pressed to her throbbing breast, as the music stirred her emotional soul to its depths. The sighs deeply and her cheeks were wet with tears as she moved to the machine when the music ceased.

They all sang the chorus to the "Old Oaken Bucket," "Sunrise River" and "Auntie Nellie," Connie's enthusiasm had vanished and her clear voice rang in sweet harmony with the deeper tones of the men.

At the conclusion of "Home Sweet Home," old John Hillier blew his nose vigorously and surreptitiously dabbed the big red handkerchief to his eyes.

(To Be Continued.)

Minard's Lintment for Chapped Hands.

Farm Implement Industry

Production For the Year 1927 Values At Over Forty-Two Million Dollars

Production from the agricultural implements and machinery industry in Canada was valued at \$42,696,288 in 1927, according to a compilation recently completed by the Canadian Government Bureau of Statistics. This output was 12 per cent. above the value of \$38,209,214 reported for the previous year which in turn showed a gain of 54 per cent. over the total of \$24,770,216 reported for 1925. Of the 43 plants in this industry in 1927, there were 43 located in Ontario, 12 in Quebec, 4 in Manitoba, 4 in Alberta, 1 in Saskatchewan, and 1 in Prince Edward Island.

Products made by these firms included harvesting machines valued at \$11,402,438; horse and power tillage implements at \$8,880,306; planting and seeding machinery at \$3,274,603; haymaking machinery, \$2,758,338; hand tools \$683,772; other farm equipment including machinery parts and accessories, \$4,800,704; sawing machines, \$2,800,000; pumps, \$592,100; gasoline engines, \$343,209; and many other commodities.

Canada Will Co-Operate

Information On Research

Canadian co-operation with Great Britain and the other overseas Dominions in the matter of agricultural research has been arranged for by Dr. J. H. Grisdale, deputy minister of agriculture, who recently returned from a three weeks' conference with representatives of all these countries in London. Following the decision last year the meeting was held to work out detailed arrangements for the exchange of information bearing on research. The cost will be borne proportionately.

It has been considered desirable to centralize the institutions in various parts of Great Britain. There is one for soil research and others include animal diseases, cereal plants, forage, horticulture and animal breeding.

The latest scientific data from research in all these similar subjects will promptly be made available to the agriculture departments of all the Dominions. Dr. Grisdale, in addition to attending the conference of government representatives, got in personal contact with all the institutions.

Thriving Centre In North

Fairview In Peace River District Is End Of Steel

Fairview, the present end of steel in the country north of the Peace River District, greeted its first passenger train on November 2. It has already become a thriving centre with two banks, five general stores, three hotels, a picture theatre and numerous other adjuncts of urban life. The story of how rapidly it has been brought into being is of a kind with which we have been nothing like as familiar of late as we were some years ago. With another era of development well under way, it will be repeated frequently from now on. Many of the buildings at Fairview are new, but some have been moved from Waterhole. The arrival is chronicled of a hotel, a Masonic hall, a rest room and a school. The town is a part of an old community is always regrettable, but a town usually has to accept the role of mahomet when a railway decides to come to it.—Edmonton Journal.

Model Mining Town

Ambitious Project Planned For Lethbridge Northern District

The development of a model mining town in the heart of the Lethbridge Northern District is said to be the objective of the new Cadillac Mine at Wallace, north of Diamond. The town, which is planned by the Lethbridge Northern officials. Among other things, the town is to be surrounded by small truck farms to be cultivated by miners with families, the gardens being, of course, amply supplied with water. According to James Pike, chief manager of the Lethbridge Northern, the new town of "Wallace" can be made an ideal place to live in, and that is the aim of the two contracting parties.

Alberta Cattle For Japan

Twenty-one Head Of Holstein Cattle Have Been Purchased

Negotiations have been completed between the Alberta Government and a firm of Japanese importers with headquarters in Yokohama, for the shipment of twenty-one head of choice Holstein cattle from this province to Japan. The cattle chosen for this consignment have been selected from a number of dairy herds in different parts of the province and include several cows with high milk records. A number of these cows along with two bulls will provide foundation stock for improved dairy herds in Japan.

The Japanese Government is also contemplating the importation of Alberta hogs.

For Cataract.—It is one of the chief

1925. Of the 43 plants in this industry in 1927, there were 43 located in Ontario, 12 in Quebec, 4 in Manitoba, 4 in Alberta, 1 in Saskatchewan, and 1 in Prince Edward Island.

Products made by these firms included harvesting machines valued at \$11,402,438; horse and power tillage implements at \$8,880,306; planting and seeding machinery at \$3,274,603; haymaking machinery, \$2,758,338; hand tools \$683,772; other farm equipment including machinery parts and accessories, \$4,800,704; sawing machines, \$2,800,000; pumps, \$592,100; gasoline engines, \$343,209; and many other commodities.

Fish seem to need more food in warm weather than in cold, experiments indicate.

Minard's Lintment for Grippe

Will Not Leave Cities

Specialists In Canada Prefer Unemployment To Working In Small Towns

Ten thousand technical specialists are listed among unemployed by the Soviet Labor Bureau at the same time that the country is struggling with the problem of insufficient technical personnel.

This apparent contradiction is explained by the circumstances that the unemployed specialists are in Moscow, Leningrad, Kharkov and other large cities, while the unfilled jobs are in the coal fields of the Donetz Basin, in the oil fields of the Caucasus and other even more unattractive provincial places.

The Labor Bureau in Leningrad alone lists 1500 unemployed specialists. Moscow has at least as many and other cities show corresponding figures. The majority of these unemployed are young graduates of the technical schools, who apparently prefer privation in the city to a job and a regular salary in the province. Three quarters of the new graduates, a Soviet newspaper points out, refuse to accept positions away from the cultural advantages of the urban centres. Higher wages and other inducements do little to overcome their distaste for life in the country.

In addition to these registered unemployed, there are doubtless hundreds more who have not placed their names on the list of the jobless, having accepted positions as office workers or store clerks rather than leave the urban life.

It is generally known that a similar situation exists in relation to physicians. While villages and provincial towns beg and clamor for doctors, thousands of them—especially young ones—are looking for work in Moscow, Leningrad, etc.

Next Imperial Conference

No Arrangements Have Yet Been Made For Any Meeting In 1929

In reference to a statement that the Australian government has urged that an imperial conference be held in 1929, Reuters' Agency learned there has never been any fixed date for the conference. So far no arrangements have been made for any meeting next autumn, and in view of the British general elections being held next summer it is improbable an imperial conference will be held. The last imperial conference was held in 1926.

In a cargo from America that was delivered at Liverpool, England, recently, were 46,000 boxes of apples, 853 boxes of pears, 800 boxes of grape fruit, and 1,000 packages of prunes.

Dragged Down By Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

What the world needs is a telephone bell that will tell who is ringing at the other end.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Many Visitors Spend Christmas Here

Home is the Great Gathering Place and Family Re-Unions Are the Rule

Though The Journal may not have a record of all who came to Coleman for the Christmas holidays, as many as possible are reported.

Adam Wilson from Lethbridge, Edna Fairhurst and Ethel Wilson from Calgary Normal school, Agnes Kellock from Mt. Royal College, Calgary; Ruth Morrison and Adele Whiteside from Victoria, B. C.; Mr. and Mrs. Ross Powell from Calgary, Mr. and Mrs. Easton and family of Granum, to spend the holidays with the Lonsburys; Mr. and Mrs. J. D. Molr of Little Woody, Sask., to visit their daughter, Mrs. Halliwell; Tom Parry from Alberta University; Mr. and Mrs. Chas. Graham and George Graham from Lacombe to visit till after New Year; Leslie Emmerson from Calgary to spend Christmas with his parents; Robert Borden on school holidays from Victoria, B. C.; relatives at Dr. D. A. McLeod's, Connie Hope from Calgary at her parents and F. B. Van Duzee of Pincher Creek, Laura Johnston from Calgary.

Doubtless there are many others of whom The Journal has not received notice.

Last Thursday's Game

(Continued from Page One)
both teams, and the crowd were on their toes, the enthusiasm of the Coleman supporters being given full vent when Kubin scored on a pass from Fraser, the old standby of the team.

In the second period Stevulek, a young recruit of much promise, scored two goals and Gates one. In the third period Fraser scored on a pass from Kubin, and Gates added two more to his tally, bringing the total to seven.

Will Hogan refereed, the game being free from penalties with the exception of one or two warnings.
